

Palliative care is an approach to enhance the quality of life of patients and their families facing serious, complex illness. Our goal is to provide comfort associated with life-threatening illness.

PALLIATIVE CARE

- Comfort Care
- Supportive Care
- Symptom Management
- Integrates the psychological and spiritual aspects of patient care
- Offers a support system to help the family cope during the patients' illness and in their own bereavement
- Uses a team approach to address the needs of patients and their families, including bereavement counselling, if needed
- Enhancing quality of life
